Teledyne Storm Microwave Announces Global Franchise Agreement with Richardson RFPD

Woodridge, IL, January 28, 2025 – Teledyne Storm Microwave, a leading provider of high-performance flexible and semi-rigid RF/Microwave cables and cable assemblies, is pleased to announce a new franchise agreement with Richardson RFPD, an Arrow Electronics Company. Under this agreement, Richardson RFPD will distribute Teledyne Storm Microwave’s broad portfolio of RF/MW products worldwide.

Richardson RFPD has been an industry-leading global provider of engineered solutions, RF & microwave and power technologies. As a global company, they add value through design-in support, systems integration, prototype design and manufacturing, testing, logistics and aftermarket technical service and repair through their existing global infrastructure. This new distribution agreement enables Richardson RFPD to offer Teledyne Storm Microwave’s RF/MW interconnect products to customers globally, leveraging their global offices and stocking locations.

Teledyne Storm Microwave offers a comprehensive portfolio of highly engineered RF test cables, cable assemblies, connectors and harness systems. Manufacturing both custom and off-the-shelf products, our diverse product lines meet emerging needs for key applications in avionics, electronic warfare, missiles, radar, satcom, space, and test and measurement.

“We are excited to enter this partnership with Richardson RFPD,” said Vincent Lamparelli, Director of Sales & Marketing at Teledyne Storm Microwave. “Their extensive distribution network and industry expertise will help us reach new markets and better serve our global customers.”

“Richardson RFPD has represented Teledyne Relay’s high-performance relays and coax switches for many years,” said Michael Canonico, Richardson RFPD’s president. “We look forward to our extensive global network of customers benefiting from this new agreement with Teledyne Storm Microwave.”
